

ARMANDO HECTOR SCALISE

Oceanographer – Coastal management consultant – GIS expert

Address Mendoza 4691
1431 Ciudad de Buenos Aires
Argentina
Birth Date December 10th 1959
Marital Status Divorced
Phone +54 11 4521 1366
+54 911 68332255
E-mail armando.scalise@gmail.com

EDUCATION

Ph.D. Candidate Current **Christian- Alberts University zu Kiel, Germany**

Currently working on a Ph.D Thesis on coastal vulnerability and resilience.

Master's Degree 02/1992 Oregon State University Corvallis-Oregon

M.Sc. in Marine resources Management from the College of Atmospheric and Marine Sciences. My main field of study was coastal management, with an emphasis on natural hazards and geographic information systems (GIS) applications to coastal problems

Oceanographer 07/1984 Universidad Nacional de la Patagonia Argentina

Degree in Oceanography with main focus on Marine Biology and strong background in mathematics, physics and statistics

SCHOLARSHIPS

Fulbright Commission Scholarship 09/1989 - 09/2001
Encyclopedie Britannica do Brazil 09/1989 - 09/2001

Both scholarships were granted towards obtaining a M.Sc. degree in Natural resources Management in Oregon State University (USA)

WORK EXPERIENCE

Consejo Federal de Inversiones –, Argentina 09/2008– 06-2009
Project Coordinator

Analysis of cliff erosion and coastal management alterantives in Las Grutas, Rio Negro Argentina

Environmental Policy Secretariat, Buenos Aires. Argentina 04/2006 – 09/2007
Senior Consultant

Development of a methodology for coastal vulnerability assessment along the Buenos Aires Atlantic Coast

eSite Inc., Mount Pleasant, South Carolina, USA
GIS automation and customization architect.

05/2007 – 06-2011

Acting as an overseas contractor, in charge of designing and developing customized GIS components for socio-economic analysis.

National Science and Technology Council (CECYT) . Argentina 03/2007 – 09/2007
GIS Coordinator

Development of SIG based, environmental and demographical databases for coastal planning in Partido de la Costa (Buenos Aires, Argentina)

Consejo Federal de Inversiones –, Argentina 09/2006 – 4/2007
Project Coordinator

Analysis of beach nourishment alternatives for erosion control along the Buenos Aires Province Atlantic Margin.

University of Patagonia, Trelew, Argentina 03/2005 / 12/2006
Professor. GIS Lecturer

GIS lecturer for introductory and advanced GIS

Department of Planning – Chubut, Argentina 03/2005 – 9/2006
GIS Consultant

Development of GIS applications for analysis and visualization of socio-economic information. Maintenance of data bases.

Project leader for the design of a GIS based repository for environmental data analysis in Chubut Province.

Dirección Provincial de Minería – Chubut, Argentina 09/2004 – 10-2005
GIS Architect

In charge of developing a GIS system for mining applications

Universidad Nacional de la Patagonia, Trelew, Argentina 03/ 2004- 11/ 2005
Associated Professor

Lecturer of Geographic Information Systems I and II at the Geography Department.

geoVue, Boston, USA 3/2002 – 3/2004
Senior GIS Applications designer and developer

Development of GIS products for site selection, market optimization, and demographics. In charge of designing and developing customized GIS components for the main line of GIS products of the company both for desktop and web applications. My duties also include writing specs, developing and integrating modules across a number of technologies. (GISDK, .NET)

United Nations Development Program. La Plata, Argentina 09 / 1993 – 02 / 1994
GIS consultant

Application of GIS to the analysis of flood hazards in Buenos Aires Province, Argentina.

Acting as coordinator of a group of experts from diverse fields (oceanography, oil engineering, computer science, economy, geology). In most cases I was in charge of defining the content of each study as well as the information gathering methodology and the edition of the final reports. I wrote proposals and tenders, dealt with government agencies, did promotional work and prepared estimates. A very important aspect of my work was to be in direct contact with clients, from the start of the project, helping them define their needs, and advising on the best technological and methodological solutions to their problems. Clients were mainly international companies or gubernmental agencies like:

YPF Argentina, AMOCO (USA), PROMODES GROUP (France), DIA% (Spain), Province of Chubut (Argentina), ENSR (USA), TYCO (USA), TELEFONICA (Argentina), TELECOM (Argentina), TERMAP (Argentina), PAN AMERICAN ENERGY (Argentina), SENASA (Argentina)

Project Manager European Union - Mercosur 06 / 2000 – 07 / 2001

A multinational project under a European Union contract. I designed and coordinated a project involving a multinational document repository to be used by the Animal and Crop Health Agencies of Argentina, Paraguay, Uruguay and Brazil.

I designed the functionality of the repository, coordinated the work of a team of 5 programmers, negotiated with the client and with users in four different countries and harmonized the system so that it can be adapted to the different technological and institutional environments in each of the four countries.

Geography department - University College Cork. Ireland 09 / 1991 – 11 / 1992
Research Associate

Development of a GIS, and a data gathering methodology for assessing the potential impact of sea level rise along the European Atlantic Coast. (Using SPANS, AUTOCAD, IDRISI and customized programs)

Oregon State University - College of Oceanography USA 10 / 1989 – 09 / 1991
Research Assistant

Development of GIS for analysis of coastal hazards and coastal erosion in Lincoln County, and Seaside, Oregon, USA (Using Arc-Info and AML programming)

Oregon State University - College of Oceanography USA 10 / 1989 – 09 / 1991
Teaching Assistant - General Oceanography

LECTURES GIVEN

Invited Lecturer 11/1996 UNDP sponsored Workshop Pinamar, Argentina
Conference: "The implementation of GIS in Argentinean municipalities". At the Workshop: "El ordenamiento ambiental en el marco del desarrollo sustentable". UNPD, Proyecto de Fortalecimiento Institucional de la Subsecretaría de Asuntos Municipales e Institucionales de la Prov. De Buenos Aires. ARG 95/103. Pinamar, Argentina

Lecturer 10/1993 UNDP Sponsored Workshop Paraná, Entre Ríos
Conference: "Introducción a los Sistemas de Información Geográfica", Ministerio de Agricultura de la Provincia de Corrientes, Proyecto PNUD Arg 91/017. 5 de Noviembre de 1993.

Invited Lecturer 10/1997 (COI- UNESCO) Workshop Río Grande, Brasil
Conference: "GIS Applications to coastal zones". Workshop: Sistemas Oceanográficos del Atlántico Sudoccidental,

Invited Lecturer 08/1995 MERCOSUR Workshop Londrinás, Brasil
Conference: "Possibilities and limitations of GIS application to agricultural plagues in Argentina. An analysis of the boll weevill and the mediterranean fly cases".

COURSES AND SEMINARS GIVEN

Main Lecturer 10/1993 Universidad Nacional de La Patagonia Argentina
Course: `Applications of data bases to geographic research`. Facultad de Ciencias Naturales, Universidad Nacional de la Patagonia, Trelew Argentina

Lecturer 01/92 to 03/92 Cork, Ireland
Seminar `Computers in Geography` . Dept. of Geography. University College Cork, Ireland.

Lecturer 4/1991 Corvallis, Oregon
Course: `ARC-Info. Applications development with AML` . College of Ocenaography, Oegon State University
